

WEIGHING IS MADE WHILE VEHICLE IS ON SCALES Arrives full

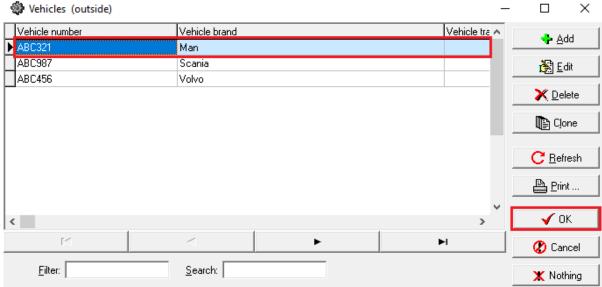

To start the weighing process for a full vehicle, press "START: Full vehicle arrives".

Step 1.

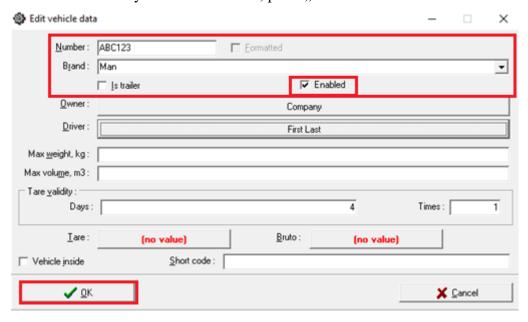

In the opened window start filing information by adding a vehicle. Press "(no value)" and select a vehicle from the list, confirm your choice by pressing "OK".

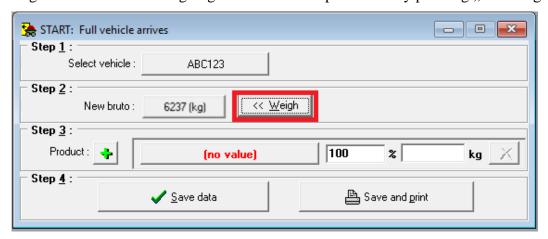

You can also add a new vehicle by pressing "New". After completing the vehicle data, press "OK" to save the data. When you select a vehicle, press "OK".

Step 2.

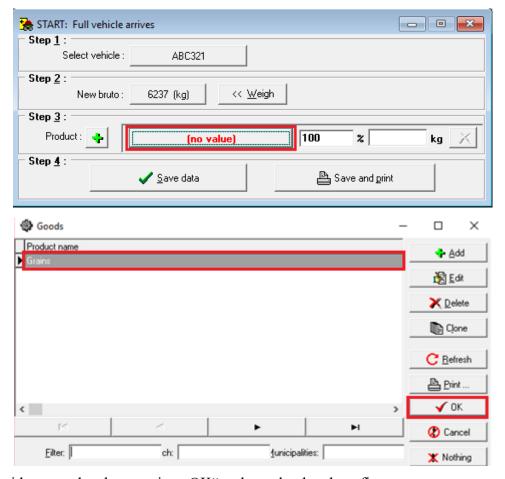

Weigh the vehicle. The weighing of the vehicle is performed by pressing " << Weigh".

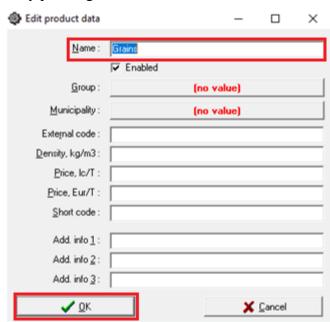

Step 3.

Specify the load. By pressing "(no value)" you can choose a product from the list or add a new one by clicking "Add".

Provide cargo data by pressing "OK", select a load and confirm.

Step 4.

Save the information. All information is saved by clicking "Save data" and confirmed by pressing "OK".

Cancel

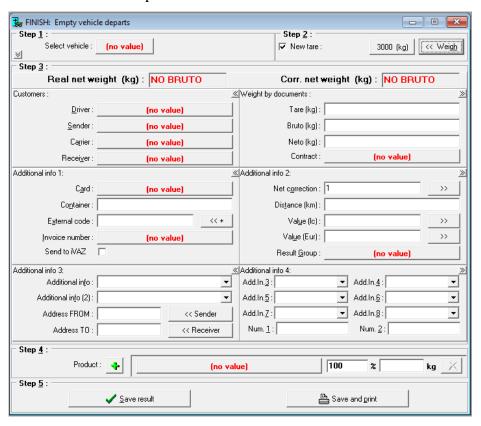

Departs empty

To start weighing the outgoing vehicle, press "FINISH: Empty vehicle departs".

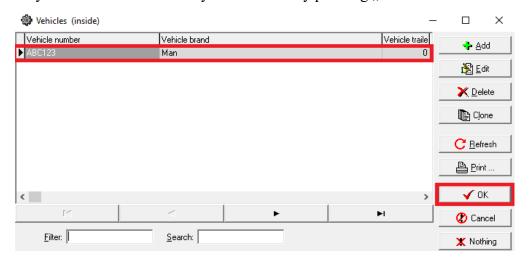

A new window will show up.

Step 1.

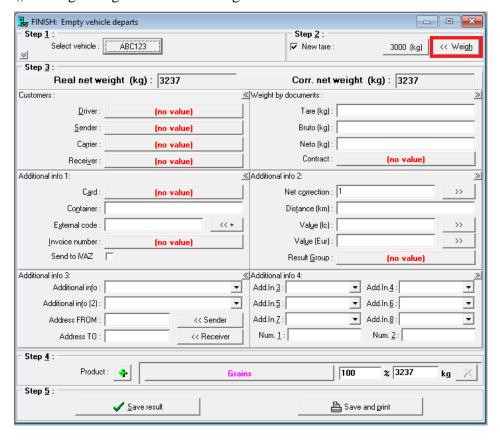

Select your vehicle and confirm your selection by pressing "OK".

Step 2.

Press ,,<<Weigh" to get the vehicle weight.

Step 3.

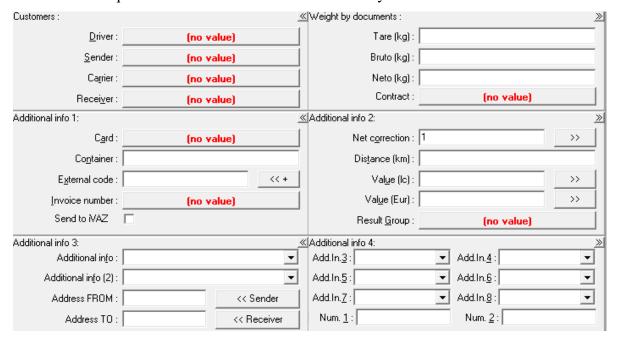

The program automatically calculates the actual net weight.

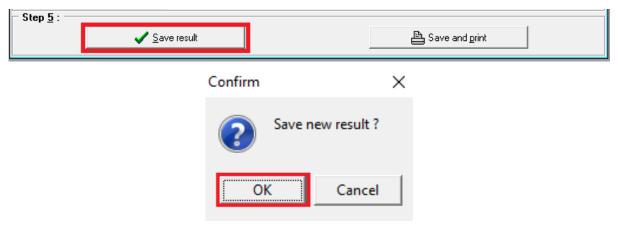

Additional info.

Fill in all required fields of additional information at your own discretion.

Step 5.

Confirm the weighing by pressing "Save result". After validating the result, the system deletes the vehicle from the existing vehicle list.

Pressing "Save and Print" will save the weighing result and open the data print window. Pressing the print button will print a data sheet.
